ALBERTO ENRIQUE CONTRERAS ROMERO

Senior FullStack & WordPress Developer | Web Architect | CRM & Automation Specialist
kikemura07@gmail.com | codebymonk.com | linkedin.com/in/alberto-enrique-contreras-romero

PROFESSIONAL SUMMARY

Senior FullStack WordPress Developer and Web Architect with 20+ years of hands-on experience delivering high-performance digital platforms for agencies, enterprise clients, and global brands. Self-taught and results-driven, with deep expertise in modular WordPress architecture (Gutenberg + ACF Pro), advanced WooCommerce customization, scalable CRM integrations (HubSpot, Salesforce, Attio), and multi-platform business process automation (Zapier, Make). Proven track record building systems for Warner Bros, Disney LATAM, and America Movil.

KEY ACHIEVEMENTS

- Unified 9 company websites into vectorsolutions.com enterprise platform during a multi-company merger.
- Built Headless CMS platforms (WordPress + Angular) for Warner Bros Liga Latina Injustice & Mortal Kombat tournaments.
- Developed Movistar Mexico nationwide virtual device catalog app used by distributors across Mexico with real-time sync.
- Architected WE-X remote call center SaaS platform enabling executives to work from home, cutting enterprise overhead.
- Engineered real-time 3D quoting engine at Tuna's Craft, slashing customer quote turnaround by ~70%.
- Delivered 50+ custom WordPress theme projects for Disney LATAM, Bimbo, Coca-Cola, Colgate, and Televisa.

PROFESSIONAL EXPERIENCE

Nathalie Lesbaches | Lead Developer
May 2025 - Present

- Directing technical architecture, fullstack development, and continuous platform maintenance for the Nathalie Lesbaches brand.
- Engineering bespoke Gutenberg blocks and high-level WooCommerce core backend extensions and checkout flows.
- Architecting mission-critical third-party integrations and multi-step business workflow automations using Zapier and Make.
- Configuring advanced tracking infrastructure, Google Tag Manager (GTM) containers, and marketing conversion pixels.
- Building custom sales and business intelligence reporting modules with automated data export and synchronization.
- Leading technical project management, sprint delivery, and roadmap execution.

Tuna's Craft | Founder & Lead Engineer
2023 - Present

- Built proprietary CRM and eCommerce platform tailored to custom manufacturing workflows, replacing legacy spreadsheets.
- Developed real-time 3D quoting engine reducing quote turnaround by ~70%, accelerating client purchasing decisions.
- Implemented automated communication pipelines via WhatsApp API and Twilio, saving 5+ hours/week in manual follow-up.

Accelity Marketing | Senior FullStack WordPress Developer
Nov 2024 - Apr 2025

- Architected scalable WordPress platforms for agency clients with high traffic and complex content architecture.
- Engineered modular Gutenberg block system reducing page creation time by ~40% for non-technical teams.
- Integrated HubSpot and Salesforce pipelines to automate lead capture, segmentation, and nurturing.
- Consistently maintained Google Lighthouse performance scores of 90+ across client deployments.

Visita Chiapas | Lead Web Architect
2025 - Present

- Architected high-performance WordPress PWA platform for regional tourism destination brand.
- Optimized for low-bandwidth mobile environments, achieving sub-3s load times on 3G cellular networks.

HUSL Digital | WordPress Lead Developer
Mar 2021 - Sept 2024

- Led WordPress development for enterprise marketing platforms across North American enterprise clients.
- Engineered reusable Gutenberg block libraries and multi-language WPML architecture for EN, ES, and FR markets.

Inallmedia | Senior WordPress Developer
2019 - Mar 2021

- Led technical consolidation of 9 standalone company websites into vectorsolutions.com.
- Managed large-scale database and content migrations, 301 redirect mapping, and SEO authority preservation.
